Mr. William Bown  
Utah Building Stone Supply  
842 West 400 North  
West Bountiful, Utah 84087

Dear Mr. Bown:

On July 18, 2000, we requested that Utah Building Stone Supply (UBSS) set up a schedule to reclaim the surface disturbance associated with UBSS's mining activities on the Fisher Creek #1 placer mining claim located in T. 13 N., R. 13 W., Section 8. This request was made because it appeared that UBSS had abandoned their operation on the subject claim. On July 28, 2000, we received your response to our letter, in which you stated that UBSS is making arrangements through Mr. Dick Riordan to submit a Plan of Operations to the Salt Lake Field Office to continue mining activities on the subject claim.

We are herein granting UBSS a 60-day period to provide this office with a Plan of Operations (Plan) to continue mining activities on the Fisher Creek #1 placer mining claim. This Plan should include a proposal to upgrade the poorly maintained two-track road which provides access into the quarry areas, and any proposals to expand the existing quarries beyond their current boundaries. In addition, the Plan should include reclamation measures to address pulling the mine dumps back into the side hill quarries at the conclusion of operations. Please be advised that no mining activities are authorized to occur on the subject placer mining claim until the Plan is approved and an appropriate reclamation bond has been received by the Bureau of Land Management.

Thank you for your cooperation. If you have any questions, or require additional information, please feel free to contact Mike Ford at (801) 977-4360.

Sincerely,

*Michael S. Lukan*
